

# Home Care Package Fee Schedule

CASS Care has been caring for Australians over 65 years old and is recognised as an approved service provider of aged care. We specialise in supporting people with complex care needs and dementia to remain living independently in their own homes. Home Care Package Pricing information is to give you information that is transparent, understandable, and allows you to exercise your choice in receiving services.

Income Test Care Fee	You may be required to contribute to the cost of your care by paying an income tested care fee. This fee is determined by Services Australia and the Department of Veterans' Affairs. Full pensioners do not pay an income tested care fee.

It includes broadly the costs: establishing and managing home care budgets; preparing monthly statements; managing your package fund; coordinating and scheduling services and workers; and compliance and quality assurance activities required for Home Care Packages.

**Care management** is an essential key component of every Home Care Package. It enables you receiving the appropriate level of support in a way that meets your current and future care needs. It ensures there is no overlap, over-servicing or mismanagement of services. Care management broadly includes:

- Reviewing your Home Care Agreement (an Agreement between you, and your provider, detailing the services you will access) and Support Plan (a Plan designed by you and your provider to ensure the services you access help you achieving your needs, goals and preferences);
- Partnering with you and your family or carers about your care;
- Ensuring your care is aligned with other supports;
- Providing a point-of-contact for you or your support network;
- Ensuring the care you receive is respectful of your culture; &
- Identifying and addressing risks to your safety.
